G-215-P

The Board will evaluate the Superintendent annually by utilizing an evaluation tool that incorporates the evaluation principles adopted by the Missouri State Board of Education. The job performance of the Superintendent should be linked to the District's goals in the Strategic Plan. The Board may also include other factors in the evaluation. The Superintendent will provide a progress update to the Board at least quarterly. The Board may take this time to address other job evaluation related issues with the Superintendent during this formative stage of the process. The summative evaluation incorporates the information utilized in the formative stage of the process. Each Board member will prepare an individual evaluation, then the Board President and Vice President will collect these evaluations and prepare a final consensus evaluation. The Board will meet with the Superintendent to share the evaluation results, discuss other pertinent job performance related issues, and determine contract related issues. The Board may determine compensation issues at the time of the summative evaluation, or at a later time, no later than June 30. The evaluation process does not preclude the Board from addressing job related issues as they arise.

Board Training and Development
G-225-P

To act effectively as the elected governing body of the District, the Board and individual Board members must be well trained regarding significant education policy issues and all items over which the Board exercises decision-making authority. The Board will annually assess its training and development needs and develop a training program sufficient to ensure all Board members and officers are sufficiently trained to successfully fulfill their responsibilities.

New Board members must successfully complete sixteen hours of orientation and training within one year of the date of election or appointment. This training shall include at least two hours and thirty minutes of training that provides up-to-date and reliable information on identifying signs of sexual abuse in children and danger signals of potentially abusive relationships between children and adults, as required by law.

Any school board member serving a term as of August 28, 2019, or elected or appointed after August 28, 2019, shall complete at least one hour of refresher training each year of any term in office related to the prevention of sexual abuse of children as required by law; except that, the refresher training shall not be required in the year in which the member completes initial orientation and training.

All programs providing the orientation and training must be offered by a statewide association organized for the benefit of members of Boards of education or be approved by the state Board.

The District will invest in the development of the Board as a whole, Board officers, and Board members individually to ensure the successful performance of the Board's role and responsibilities. The costs of all such training and development will be paid by the District.

Ballot Issues
G-230-P

The Board may place issues on the ballot as needed or as required by law. In accordance with law, the Superintendent or designee will notify the election authority of the ballot issue and provide the Board-approved language for the ballot no later than 5:00 p.m. on the tenth Tuesday prior to the election.

In accordance with law, no expenditure of District public funds will be made to advocate, support or oppose any ballot measure or candidate for public office. To the extent allowed by law, Board members or the Superintendent or designee may adopt resolutions, make public appearances or communicate information concerning ballot measures or candidates.

Once the District receives the results, the official election results will be presented to the Board at the next regular meeting. The Board will vote to either accept the results or take action to challenge the results.

Board Member Elections
G-235-P

The voters of the District will annually elect two directors for terms of three years each on the municipal Election Day in April. An additional director will be elected triennially.

Candidate Filing

Before the sixteenth Tuesday preceding the election, the Board shall publish in at least one newspaper of general circulation in the District the opening filing date, the offices to be filled, the place for filing, the closing date for filing and a statement that candidates filing on the first day of filing will be listed on the ballot in random order.

Qualified applicants for the Board may file a declaration of candidacy during business hours in the Superintendent's office commencing at 8:00 a.m. on the sixteenth Tuesday prior to the election and ending at 5:00 p.m. on the eleventh Tuesday prior to the election. The candidate shall declare his or her intent to become a candidate in person and in writing to the Secretary of the Board or designee. The District will designate a location where candidates will form a line to file the necessary paperwork in order to determine the order of such filings for ballot placement.

The names of qualified candidates shall be placed on the ballot in order of filing, except that for candidates who file a declaration of candidacy prior to 5:00 p.m. on the first day of filing, the District shall determine by random drawing the order in which such candidates' names shall appear on the ballot. Each candidate filing on the first day shall draw a number at random at the time of filing. The District shall record the number drawn with the candidate's declaration of candidacy. The names of candidates filing on the first day of filing shall be listed in ascending order of the numbers so drawn and ahead of the names of candidates filing on a later date.

The notice of election and certification of candidates must be submitted to the election authority by the tenth Tuesday prior to the election in the manner provided by law. After the tenth Tuesday prior to the election, the candidate list may only be modified pursuant to court order, in accordance with law.

Prior to the District's certification of candidates to the election authority, a candidate may withdraw from the election by presenting to the District a notarized written statement of his or her intention to withdraw. After the deadline for certification of candidates to the election authority, a candidate may only withdraw pursuant to court order, in accordance with law.

The District will provide each candidate a copy of the Notice of Candidate's Obligation to File a Financial Interest Statement and a plain language summary of the applicable laws provided by the Missouri Ethics Commission as required by law. Candidates must comply with laws concerning eligibility, campaign financing and campaign disclosures.

Filing by Certified Mail

In accordance with law, candidates may file by certified mail if they are unable to file the declaration of candidacy and other necessary paperwork in person due to a physical disability or because they are members of the U.S. Armed Forces on active duty. Upon request, the District will provide potential candidates the necessary paperwork prior to the opening date of candidate filing and during the filing period.

The candidate must personally sign the declaration of candidacy and other documents necessary for filing that require a signature and the signatures must be notarized. In addition, the declaration of candidacy of a person with a physical disability who is filing by certified mail must be accompanied by a notarized statement from a licensed physician verifying the disability. A candidate on active duty military service who is filing by certified mail must include a notarized statement from the candidate's commanding officer verifying the candidate's active duty status.

A candidate's completed declaration of candidacy and other necessary documents must be received by the District during the official candidate filing period in order for the candidate to appear on the ballot. If these documents are received by the District before 8:00 a.m. on the first day of filing or after 5:00 p.m. on the last day of filing, the District will not accept them and will return them to the candidate.

While the declaration of candidacy and other necessary documents must be sent to the District by certified mail in accordance with law, the candidate may designate a personal representative to draw a number on the first day of filing or stand in line on behalf of the candidate for ballot placement purposes by submitting a completed and notarized form provided by the District. As long as the candidate's declaration of candidacy and other necessary documents are received by the District after the beginning of filing and before the close of filing on the last day of filing, the candidate's ballot placement as determined by the personal representative's participation will stand.

If the candidate does not designate a personal representative for ballot placement purposes and the District receives the candidate's declaration of candidacy and other necessary documents the first day of filing, the candidate will be listed on the ballot after all other candidates who drew a random number on the first day of filing. If the District receives the necessary documents on any other day of filing, the District will list the candidate on the ballot in the order the declaration of candidacy and other necessary documents are physically received by the District. If two or more candidates file by certified mail on the same day and the filings are received at the same time, the District will list the candidate with the earlier postmark date first. If two or more postmark dates are identical, the candidates will be listed in the order the mail is processed.

If the required paperwork is received after candidate filing has closed for the day or on a day the District's offices are closed, the candidate will be considered to have filed first on the next day filings are received.

Write-In Candidates

If candidates have filed for a position, a person interested in becoming a write-in candidate must file a declaration of intent to be a write-in candidate with the proper

election authority prior to 5:00 p.m. on the second Friday immediately preceding the Election Day in order for the votes to be counted. If no candidates have filed for the position, filing a declaration of intent to be a write-in candidate is not necessary but is recommended.

No Election Held

No election will be held if, after the last date of candidate filing, the number of candidates who have filed is equal to the number of positions to be filled by the election. However, if the number of candidates filing exceeds the number of positions, the election will be held even if a sufficient number of candidates withdraw so that the number of candidates remaining after the filing deadline is equal to the number of positions to be filled.

7. Not be a registered sex offender; and
8. Be in compliance with all Missouri Ethics Commission requirements.

G-225-P

Successful Board candidates shall take an oath of office to faithfully perform the duties of the office as required by law to support the Constitution of the United States, the Constitution of Missouri and laws made pursuant thereto. The oath shall be administered by the Board Secretary or by an officer/designee authorized to administer the oath of office as determined by the Board.

Board Member Ethics
G-260-P

Each Board member will:

1. Make all Board decisions based upon the best interests of the students of the District.
2. Exercise authority in the limited manner described by the District's policy regarding the Board's role and responsibilities.
3. Delegate administrative authority to the Superintendent and avoid actions that may undermine the authority of the administration.
4. Never speak or act for the Board without appropriate Board authorization to do so.
5. Avoid conflicts of interest or the appearance thereof.
6. Refrain from using Board membership for the benefit of special interest groups or select individuals, including self, family members, and business associates.
7. Learn about, consider and vote upon the items to be decided at each regularly scheduled Board meeting.
8. Avoid abstaining from Board votes unless required by law or there is an actual or apparent conflict of interest.
9. Voice opinions as part of the Board's deliberations but accept the will of the majority once the Board has made a decision.
10. Maintain the confidentiality of information discussed during closed sessions unless disclosure is required by law.

Prohibition of Nepotism
G-265-P

Board members will not vote to employ or appoint any person who is related to them within the fourth degree by blood or marriage. "Employ" in this context includes hiring persons to be employees of the District and approving independent contractors who provide services to the District. Persons who are related "within the fourth degree" include parents, grandparents, great-grandparents, great-great-grandparents, spouse, children, siblings, grandchildren, great-grandchildren, great-great-grandchildren, nieces, nephews, grand-nieces, grand-nephews, aunts, uncles, great-aunts, great-uncles, and first cousins by virtue of a blood relationship or by marriage.

Board Member Financial Conflict of Interest

G-270-P

Board members will avoid situations in which their responsibilities as a Board member conflict with their private financial interests. Board members will follow all applicable laws regarding conflicts of interest. The phrase a “*Business with Which a Board Member Is Associated*” as used in this policy means:

1. A sole proprietorship owned by the Board member, his or her spouse or any dependent children in the Board member's custody;
2. A partnership or joint venture in which the Board member or his or her spouse is a partner, other than as a limited partner of a limited partnership, and any corporation or limited partnership in which the Board member is an officer or director or of which the Board member or his or her spouse or dependent children in the Board member's custody, whether singularly or collectively, own more than ten percent of the outstanding shares of any class of stock or partnership units; or
3. Any trust in which the Board member is the trustee or settlor or in which the Board member or his or her spouse or dependent children in his or her custody, whether singularly or collectively, are beneficiaries or holders of a reversionary interest of ten percent or more of the corpus of the trust.

Statement of Interest

Before voting, Board members who have a substantial personal or private interest in a decision before the Board will provide a written statement of the nature of the interest to the Board Secretary as described in G-275-P.

Self-Dealing

Board members may not act or fail to act due to any payment, offer to pay, promise to pay or receipt of anything of actual pecuniary value, whether received or not, to themselves or any third person. This prohibition includes a gift or campaign contribution made or received in relationship to or as a condition of the performance of any official act.

Board members will not act favorably on any matter that is specifically designed to provide a special monetary benefit to them, their spouses or dependent children in their custody. A “special monetary benefit” means being materially affected in a substantially different manner or degree than the manner or degree in which the public in general will be affected or, if the matter affects only a special class of persons, then affected in a substantially different manner or degree than the manner or degree in which such class will be affected.

Board members will not use their decision-making authority for the purpose of obtaining a financial gain that materially enriches them, their spouses or dependent children in their custody by acting or refraining from acting for the purpose of coercing or extorting anything of actual pecuniary value.

Board members will not offer, promote or advocate for a political appointment in exchange for anything of value to any political subdivision.

Board members will not accept gifts with a value in excess of \$100 from a vendor who does or is attempting to do business with the District.

A Board member will not attempt to directly or indirectly influence or vote on a decision when the Board member knows the result of the decision may be the acceptance by the District of a service or the sale, rental or lease of property to the District and the Board member, his or her spouse, dependent children in his or her custody or any business with which the Board member is associated will benefit financially. If such a transaction is presented to the Board, the Board member will abstain and leave the room during any deliberation.

Confidential Information

Board members will not use or disclose confidential information obtained in the course of or by reason of their official capacities in any manner with intent to result in financial gain for themselves, their spouses, dependent children in their custody, any business with which the Board member is associated or any other person.

Sale, Rental or Lease of Property

Property Other Than Real Estate: No Board member will sell, rent or lease any personal property to the District for consideration in excess of five hundred dollars' value per transaction or five thousand dollars' value per year to the Board member, to his or her spouse, to a dependent child in his or her custody or to any business with which he or she is associated unless the transaction is made pursuant to an award on a contract let or sale made after public notice and competitive bidding, provided that the bid or offer accepted is the lowest received.

Real Estate: No Board member will perform a service or sell, rent or lease any real property to the District for consideration in excess of five hundred dollars' value per transaction or five thousand dollars' value per year to the Board member, to his or her spouse, to a dependent child in his or her custody or to any business with which he or she is associated unless the transaction is made pursuant to an award on a contract let or sale made after public notice.

Employment

The District will not employ a Board member for compensation, even on a substitute or part-time basis. Board members may provide services as a volunteer without remuneration.

Independent Contractor Services

No Board member will perform a service as an independent contractor for consideration in excess of five hundred dollars' value per transaction or five thousand dollars' value per year to him or her, to his or her spouse, to a dependent child in his or her custody or to any business with which he or she is associated unless the transaction is made pursuant to an award on a contract let or sale made after public notice and competitive bidding, provided that the bid or offer accepted is the lowest received.

Businesses That Employ Board Members

A Board member may participate in discussions and vote on motions for the District to do business with entities that employ the Board member so long as the business is not owned by the Board member and the Board member will not receive any financial benefit from the transaction. The Board member may need to provide a statement describing his or her personal or private interest as described in G-275-P.

Purchases Involving Federal Funds

In addition to the requirements of this policy, Board members must follow the of the District's purchasing rules and are also subject to the conflict of interest provisions of federal law.

As used in this policy, the phrase a "*Business with Which a Board Member Is Associated*" means:

1. A sole proprietorship owned by the Board member, his or her spouse or any dependent children in the Board member's custody;
2. A partnership or joint venture in which the Board member or his or her spouse is a partner, other than as a limited partner of a limited partnership, and any corporation or limited partnership in which the Board member is an officer or director or of which the Board member or his or her spouse or dependent children in the Board member's custody, whether singularly or collectively, own more than ten percent of the outstanding shares of any class of stock or partnership units; or
3. Any trust in which the Board member is the trustee or settlor or in which the Board member or his or her spouse or dependent children in his or her custody, whether singularly or collectively, are beneficiaries or holders of a reversionary interest of ten percent or more of the corpus of the trust.

Board Member Personal Financial Disclosures
G-275-P

The Board hereby adopts this regulation as its policy establishing and making public its own method of disclosing financial interests of Board members, candidates and specified administrators, in accordance with law. Financial interest statements (also known as personal financial disclosure statements) as described below will be filed with the Missouri Ethics Commission (MEC) and the Board on or before May 1 for the preceding calendar year, unless the person filing is a Board candidate. Candidates must file their reports within 14 days after the last day to file for office. The reports will be made available for public inspection and copying during normal business hours.

This policy dealing with the financial interest statement will be adopted in an open meeting every other year by September 15. A certified copy of this policy will be sent to the MEC within ten days of adoption.

School Board members and candidates will report the following transactions if they occurred during the previous calendar year. If no such transactions occurred, the Board member or candidate will still file, but will mark the items as not applicable.

1. Each transaction in excess of \$500 per year between the District and the individual or any person related within the first degree by consanguinity or affinity to the individual. The statement does not need to include compensation received as an employee or payment of any tax, fee or penalty due the District and other transfers for no consideration to the District. The statement will include the dates and identities of the parties in the transaction.
2. "First degree of consanguinity or affinity" includes parents, spouse or children by virtue of a blood relationship or marriage.
3. Each transaction in excess of \$500 between the District and any business entity in which the individual has a substantial interest. The statement does not need to include any payment of tax, fee or penalty due the District or payment for providing utility service to the District and other transfers for no consideration to the District. The statement will include the dates and identities of the parties in the transactions.

Before voting, Board members who have a substantial personal or private interest in a decision before the Board will provide a written statement of the nature of the interest to the Board Secretary. The written statement will be recorded in the minutes. Board members who have disclosed the interest in a financial interest statement filed or amended prior to the vote will be in compliance with this requirement. A substantial personal or private interest exists when the Board member or his or her spouse or dependent children in his or her custody, either singularly or collectively, directly or indirectly:

1. Own(s) ten percent or more of any business entity; or
2. Own(s) an interest having a value of \$10,000 or more in any business entity; or

3. Receive(s) a salary, gratuity or other compensation or remuneration of \$5,000 or more from any individual, partnership, organization or association within any calendar year.

School Admissions **S-100-P**

General Admission Requirements

The District must provide free education to resident students between five and 21 years old. Children seeking to enroll in a school District must meet all the residency, academic, age, immunization, and discipline pre-requisites. Children who reach the age of five before August 1 are eligible to enroll in Kindergarten.

Within two business days of a child's enrollment, the District will request the academic and discipline records from each school the child attended in the last 12 months. If a child has been placed via a foster home, residential care facility, or child-placing agency, within 48 hours of the child's enrollment, the District will request the academic and discipline records from all schools and facilities previously attended by the student. For these students, the District will also request the academic and discipline records from the Department of Social Services, the Department of Mental Health, the Department of Elementary and Secondary Education, and any entity involved with the placement of the student within the last 24 months.

Student Enrolling while on Suspension

At the time of enrollment, the District will require parents/guardians to provide a signed statement indicating whether the student has been suspended or expelled from any school and affirm that the student has not been convicted or charged with any Safe School Act violations. The child will be denied enrollment if he/she is on suspension/expulsion from another school at the time of enrollment, and the child's conduct would have resulted in suspension/expulsion in the District. The District will honor the suspension unless the Superintendent or designee has determined otherwise. The District will inform the parents/guardians that they may schedule a conference with the Superintendent or designee to discuss the student's conduct and how the District would have disciplined the conduct.

Resident Student

Prior to admission, students must generally provide proof that they reside in the District. A student is a "resident" of the District if they (1) physically reside in the District; and (2) are domiciled in the District – meaning the student's parent/guardian physically resides in the District.

Numerous exceptions to the residency requirement exist under the law. Students are exempt from the residency requirement by law if the student is:

- Homeless,
- Placed in a residential care facility within the District,
- A participant in an inter-District, court-ordered desegregation program,
- Assigned to the District by the commissioner of education due to an unusual or unreasonable transportation hardship (resident District pays tuition),

- Disabled and residing in the District for reasons other than accessing the District's educational program,
- An orphan, has only one parent living, or their parents do not contribute to their support as long as the students are between the ages of six and 20 years old and unable to pay tuition,
- A child of parents/guardians who pay school taxes on property in the school District but do not live in the District (may attend on a tuition basis and school taxes paid to the District by the parents/guardians will be deducted from the tuition charge),
- A child of parents/guardians who own real estate of which 80 acres or more are used for agricultural purposes and upon which their residence is situated (may attend school in any District in which a part of the real estate is contiguous to that upon which their residence is situated, lies, provided that 35 percent of the real estate is located in the District of choice,
- Placed by the Missouri Department of Mental Health, the Missouri Department of Social Services or by court order in facilities or programs located within the District,
- Reside in a District that has been declared unaccredited by the Missouri State Board and that is located in the same county or adjoining county as the District (resident District must pay tuition),
- Placed in the care of another person living in the District because one or both parents/guardians are stationed or deployed out of state or deployed within Missouri by the military or on active duty military service,
- Placed in foster care outside the District, previously attended the District, and are placed in an adjacent District, and
- District policy may provide that the children of District teachers and/or employees are permitted to attend without payment of tuition.

Non-Resident Students

A non-resident student is one who does not meet the requirements to be a resident of the District, as defined by the law and the District's policies. The Board, in its discretion and unless otherwise required by law, may admit non-resident students not entitled to free instruction and prescribe the tuition fee to be paid by them. The District will set the rate of tuition based upon the per-pupil cost for the previous school year, including operation, maintenance, and debt service. In some circumstances, the District may also charge transportation costs.

Residency Waivers

Students who live in the District but who do not meet the residency requirements because their parent/guardians do not physically reside within the District, and who want to attend a District school, may request a waiver of proof of residency. Parents must submit requests for a residency waiver to the Superintendent or designee for review.

The review process should first establish if the student physically resides in the District and if the student resides in the District for reasons other than attending the District's school. The District must then determine if hardship or good cause exists for the request. The District will grant the residency waiver based upon the applicable factors but will not grant a waiver based on a student's athletic ability.

If the Superintendent/designee determines that a student is not entitled to a waiver, the Superintendent/designee will present the residency waiver to the Board for the Board's review and consideration. The Board will conduct this hearing to consider the request as soon as possible, but no later than 45 days after receipt of the request. While a waiver request is pending Board review and determination, the District will conditionally enroll the student unless there is reason to suspect that admission of the student will create an immediate danger to the safety of other students or employees. If there is reason to suspect admission of the student will create an immediate danger to the safety of other students or employees, then the Superintendent or designee must conduct a hearing within five working days of the request for a waiver to determine if the student will be permitted to register and attend school. If the Board does not hold a hearing within 45 days, the request is automatically granted and the student will be allowed to enroll and attend school.

Student Absences and Excuses
S-115-P

Missouri law requires students attend school. To succeed in school, students must attend all classes regularly. The District will report attendance for every period, every day. The District will record all student absences on the student's permanent record. The District will excuse students with recorded absences for District-sponsored activities, such as but not limited to the Missouri State High School Activities Association (MSHSAA). As required by law, absences for participation at the Missouri State Fair competitions for the Future Farmers of America Organization (FFA), Family, Career, and Community Leaders of America (FCCLA) and 4-H programs will be counted as school attendance when the student's parents/guardians observe the reporting procedures.

Student Transfers

S-120-P

The District will enroll students in the school associated with the attendance area in which the student resides. If a student's residence changes to a different attendance area within the District, the student must transfer to the associated school. The Superintendent or designee may consider exceptions to this policy under the following conditions:

Intra-District Transfer Requests

The District will not generally grant requests for transfers but the District will make limited exceptions based upon educational needs of the student. Parents/guardians may request a transfer to another school within the District by completing the transfer request form available on the website. All transfer requests will consider a school's space and class sizes. The District may rescind a transfer for any reason, including but not limited to, disciplinary issues and absenteeism. Any student who transfers to a school outside the student's attendance area based upon residence will be subject to all eligibility rules of the Missouri State High School Activities Association (MSHSSA). The final decision regarding a student transfer rests with the District administration. The District will not provide transportation outside the student's attendance area unless required by law. The Board authorizes the Superintendent to establish student transfer procedures.

Superintendent Authority

The Superintendent or designee may transfer students between schools if a transfer is necessary for the student's safety, health, or welfare, or to address overcrowding in a school. The decision of the Superintendent regarding a student transfer will be final.

Students who are Homeless, in Foster Care, or Disabled

Students who are homeless or in foster care may attend their school of origin if it is in the student's best interest. The District may assign District students with disabilities (served under the provisions of an Individual Education Plan (IEP) or Section 504 Plan (504)) to a school outside the student's attendance area as determined by the IEP or 504 team. In special circumstances, and at the mutual discretion of the participating school Districts, Districts may contract for necessary services for students with disabilities.

Transfers Allowed by Law

The District will consider students placed into programs by the Missouri Department of Mental Health (DMH), the Department of Social Services (DSS), or by a court order a resident of the school District in which the program is housed. The District will allow a student to attend another school within the District if that student is enrolled in a persistently dangerous school or becomes a victim of a violent criminal offense on school property as mandated by state regulations.

Student Records
S-125-P

Education records are maintained on every student enrolled in the District. Education records refer to materials maintained by the District that contain personally identifiable information about a student. Education records may include, but are not limited to, date and place of birth, parental/guardian names and addresses, emergency contact information, enrollment and attendance records, academic records, special education records, discipline information, and health records. The confidentiality of a student's records, excluding general directory information as defined by the District, are protected by law, and only parents/guardians, eligible students (a student who is 18 years of age or attends a postsecondary institution to whom all rights formerly given to parents transfer to the student), and school officials who have a legitimate educational interest are provided access to records, unless specifically allowed by law. The District establishes procedures and complies with the requirements of the Family Educational Rights and Privacy Act (FERPA), the Safe Schools Act, and the Missouri Sunshine Law.

The District will annually notify parent/guardians and eligible students of their rights under FERPA. Parents/Guardians or eligible students may inspect and review their educational records, request amendments, provide consent for release of information, and file a complaint. Records will be made available for inspection within the timeframe as defined by law. In accordance with law, the District will share information without parental consent or notification with law enforcement, Children's Division of the Department of Social Services, military recruiters, or a post-secondary institution.

Parental requests for access to a student's educational records may be made by contacting the building principal.

Administration of Medication
S-135-P

Some students require medication to attend and benefit from school. Whenever possible, medication should be administered at home. The District is not legally required to dispense medication to students unless specifically addressed in an Individual Education Plan (IEP) or Section 504 Plan (504).

The Board authorizes the development of procedures in accordance with law that allow trained, qualified employees to administer medication and/or medical treatment to facilitate students' attendance and participation in school. District employees who administer first aid, medication, or cardiopulmonary resuscitation (CPR) according to District policy, procedures, and standard medical practices will be immune from civil liability. Parents/Guardians who request that over-the-counter or prescription medications be dispensed to their child during the school day must contact the school nurse or designee and provide any requested, relevant information and authorization before medication will be administered.

Under specific conditions and as required by law, a student may be authorized for the possession and self-administration of medication to treat a chronic health condition at school, during a school-sponsored activity, and in transit to or from school. Parents/Guardians who request their student to self-administer medication must contact the school nurse or designee to ensure the proper information is received and processes are completed prior to permission to do so.

Student Allergy Prevention and Response **S-145-P**

The District will ensure students with allergies are safe at school through planned prevention and response to a student's allergic reaction. For purposes of this policy, an allergic reaction occurs when the immune system overreacts to a typically harmless substance and may be mild to life-threatening. This policy applies to all school locations, including nonacademic school-sponsored activities and transportation provided by the District. The Board authorizes the Superintendent or designee to develop and implement procedures to protect the health and well-being of students with significant allergies.

Building-Wide and Classroom Approaches

The District will ask the person enrolling a student to provide information on any allergies the student may have. The school nurse may request written permission from the parent to communicate with the health care provider as needed. The District will annually train staff members on risk reduction strategies, symptom recognition, and response procedures. The District will also ensure the school nurse has an emergency kit available and accessible in all school buildings containing prefilled auto syringes of epinephrine and asthma-related medications as allowed by District rules. The District will provide age-appropriate education for all students, consistent with state learning standards, including potential causes of allergic reactions, information on avoiding allergens, symptoms of allergic reactions, and simple steps a student can take to keep classmates safe.

All processed foods, including food sold in vending machines, will be labeled with a complete list of ingredients on each individual package. Ingredient lists will be created for all food provided through the District's nutrition program, including before- and after-school programs, which are available upon request. This requirement will apply to items sold as part of concessions, fundraisers, and classroom activities. Cleaning protocols to remove allergens and avoid contamination of classroom surfaces and cafeteria tables, particularly at tables where students with food allergies will be eating will be established. District employees are only allowed to use cleaning materials provided or approved by the District. All staff members must avoid using air fresheners, oils, candles or other items that add fragrance to District facilities.

Individual Approaches

The District will evaluate and determine whether a student's allergies rises to the level of a disability that require accommodations through the provisions of an Individual Education Plan (IEP) or Section 504 Plan (504). For those students who have allergies that do not rise to the level of disability, a designated team may develop an Individual Health Plan (IHP) and/or Emergency Action Plan (EAP). Staff who have a need to know about a student's allergies and plan will be informed and trained, and all staff members will follow any IEP, 504 Plan, IHP, and/or EAP.

A student's health information and individualized plan will be kept confidential and not shared with those who do not have a need to know unless authorized by the parent/guardian or as allowed by the Family Educational Rights and Privacy Act (FERPA). The District will communicate and collaborate at least annually with parents/guardians regarding the student's allergies, medications, restrictions/precautions, emergency contacts and any other relevant information to keep the student safe.

Reporting and Investigating Child Abuse
S-160-P

All school employees and school officials are required to report possible abuse or neglect of children. As mandated reporters, District staff and school officials will immediately report any child abuse or neglect they suspect or observe by calling the Abuse Hotline at 1-800-392-3738 or reporting online (when applicable and available). A mandated reporter may also make a report of suspected child abuse or neglect to any law enforcement agency or juvenile office. However, such report does not take the place of reporting to Children's Division (CD).

Student Discipline
S-170-P

Definitions

Acts of violence or violent behavior - The exertion of physical force with the intent to do serious physical injury while on school property, including District-transportation and school activities.

Corporal Punishment – The intentional infliction of physical punishment, usually in the form of spanking, as a method of student discipline.

Detention – A form of student discipline that requires students to attend a before and/or after school setting which monitors and restricts student activity.

Expulsion – A form of student of student discipline which removes and excludes a student from school for an indefinite period of time. Students who are expelled are entitled to due process rights.

In-school suspension – A form of student discipline which consists of removing the student from normal classes during the day and assigning the student to an in-school suspension program or class for a specified period.

Need to know – A requirement to report acts of school violence to school personnel who are directly responsible for a student’s education and who otherwise interact with the student on a professional basis while acting within the scope of their assigned duties.

Out-of-school suspension – A form of student discipline that removes and excludes a student from school for a defined period. Students who are suspended are entitled to due process rights.

Physical Restraint – The use of person-to-person physical contact to restrict the free movement of all or a portion of a student’s body. It does not include briefly holding a student without undue force for instructional or other purposes, briefly holding a student to calm the student, taking a student’s hand to transport him or her for safety purposes, physical escort, or intervening in a fight.

Restitution – The requirement of a student to return or pay for stolen goods or damaged property.

The District holds students accountable for their conduct in school, on District property, including District transportation, and during District-sponsored activities in order to ensure the safety of all students and maintain an atmosphere where orderly learning is possible and encouraged. The District discipline policy will be provided to every student at the beginning of each year, be published on the District website, and made available in the office of the Superintendent during normal business hours. Failure to obey standards of conduct may result in, yet is not limited to, verbal warning, community

service, confiscation of property, principal/student conference, parent contact, loss of credit, grade reduction, course failure, removal from extracurricular activities, revocation of privileges, detention, in- or out of school suspension, expulsion, and report to law enforcement. The Board authorizes the immediate removal of a student who poses a threat of harm to others as determined by the principal or Superintendent. If a student is suspended or expelled, the student will not be allowed within one thousand feet of any school property in the District or any District-sponsored activity, whether or not the activity takes place on District property.

If a student engages in an act of violence, a school administrator will report the information to teachers and other District employees who are responsible for the student's education or otherwise interact with the student on a professional basis while acting within the scope of their assigned duties. Additionally, school administrators will report to the appropriate law enforcement agencies any crimes as required and defined by law.

Corporal punishment is strictly prohibited as a method of discipline. However, reasonable force may be used, when necessary, for the protection of a student or others or property. The District prohibits confining a student in an unattended, locked space except for an emergency situation while awaiting the arrival of law enforcement personnel.

Students with disabilities will be disciplined in compliance with state and federal laws per the Individuals with Disabilities Act (IDEA), Section 504 of the Rehabilitation Plan, and any regulations and state and local compliance plans, which includes due process rights as afforded to all students. Additionally, a student's Individual Education Plan (IEP), including any portion that is related to past or potentially future violent behavior, will be disclosed to appropriate staff members with a need to know.

Information regarding a student's misconduct and discipline is confidential and only shared with individuals who have a need to know. Teachers and other authorized District personnel shall not be civilly liable when acting in conformity with District policies, including the discipline policy, or when reporting acts of school violence to a supervisor or other person as mandated by law.

Bullying, Hazing, and Cyberbullying **S-185-P**

The District strictly prohibits bullying, including hazing, and cyberbullying on school grounds, at any school function, or on District transportation.

Bullying means intimidation, unwanted aggressive behavior or harassment that is repetitive or is substantially likely to be repeated and causes a reasonable student to fear for his or her physical safety or property; substantially interferes with the educational performance, opportunities, or benefits of any student without exception; or substantially disrupts the orderly operation of the school. Bullying may consist of physical actions, including gestures, or oral, cyberbullying electronic, or written communication, and any threat of retaliation for reporting such acts.

Cyberbullying means bullying as defined above through the transmission of a communication including, but not limited to a telephone, wireless telephone, or other wireless communication device, computer, or pager. The District has jurisdiction to prohibit cyberbullying that originates on a school campus or at a District activity if the communication was made using District technological resources, if there is sufficient nexus to the educational environment, or if the electronic communication was made on the school's campus or at a District activity using the student's own person technological resource.

Anti-bullying Coordinator – The Superintendent will ensure an individual at each school is designated to serve as the anti-bullying coordinator. All anti-bullying coordinators will be teacher-level or above and a list of coordinators will be kept on file at the District administration office and updated annually. Additionally, a District anti-bullying coordinator will be designated.

School Day – A day on the District calendar when students are required to attend school.

Reporting Bullying or Cyberbullying

District employees are required to report any instance of bullying of which the employee has firsthand knowledge. Any employee, substitute, or volunteer who witnesses an incident of bullying must report the incident to the building anti-bullying coordinator within two school days of witnessing the incident. If the anti-bullying coordinator is unavailable or is the subject of the report, the employee should contact the District's Compliance Officer. In addition, all District employees, substitutes, or volunteers must direct all persons seeking to report an incident of bullying to the building anti-bullying coordinator.

Any individual making a verbal report of bullying will be asked to submit a written complaint to the anti-bullying coordinator. If the person refuses or is unable to submit a written complaint, the anti-bullying coordinator will summarize the verbal complaint in writing.

When an anti-bullying coordinator is informed about a possible bullying or cyberbullying incident, verbal, written, or otherwise, the District will conduct a prompt, impartial, and thorough investigation to determine whether misconduct, including unlawful conduct, occurred. The District will implement interim measures as necessary. When it is determined that bullying or cyberbullying occurred, the District will take appropriate action for violations of District expectations and rules.

Investigation

Within two school days of receipt of a report of bullying or cyberbullying, the anti-bullying coordinator or designee will initiate an investigation of the incident. The school principal may appoint other school staff to assist with the investigation. The investigation will be completed within 10 school days from the date of the written report unless good cause exists to extend the investigation. A copy of the written report of the investigation and results will be sent to the District anti-bullying coordinator and included in the files of the victim and the alleged or actual perpetrator of bullying or cyberbullying. All reports are confidential in accordance with law and District rules.

Retaliation

The District prohibits reprisal or retaliation against any person who reports an act of bullying or cyberbullying, testifies, or participates in any manner with an investigation proceeding, or hearing. The District will take appropriate remedial action for any student, teacher, administrator, or other school personnel who retaliates.

Consequences of Bullying, Cyberbullying, or Retaliation

When the District receives a report of bullying, cyberbullying, or retaliation, interim measures to protect the victim(s) will be taken. If an investigation determines that bullying, cyberbullying, or retaliation occurred, the District will act to end the bullying, cyberbullying or retaliation. Students who are determined to have participated in bullying, cyberbullying, or retaliation will be disciplined in accordance with the District discipline policy.

Consequences may include, but are not limited to, loss of privileges, detention, in- or out-of-school suspension, expulsion, and referral to law enforcement. Any determination of consequences will consider factors such as the age of the student(s), developmental level of the student(s), degree of harm, severity of behavior, disciplinary history, and other educationally relevant factors.

Definitions

Behavioral Intervention - An individualized instructional and environmental support that teaches students appropriate behaviors to replace problem behaviors. Behavioral interventions are guided by a functional behavioral assessment that identifies the communicative intent of problem behavior and takes into consideration any known medical, developmental or psychological limitation(s) of the student.

Behavior Intervention Plan (BIP) - A plan that sets forth specific behavior interventions for a specific student who displays chronic patterns of problem behavior.

Behavior Management - Comprehensive, schoolwide procedures applied in a proactive manner that constitute a continuum of strategies and methods to support and/or alter behavior in all students.

Emergency Situation - A situation in which a student's behavior poses a serious, probable threat of imminent physical harm to self or others or destruction of property.

Functional Behavior Assessment - A formal assessment to identify the function or purpose a behavior serves for the student so that classroom interventions and behavior support plans can be developed to improve behavior. The assessment could include observations and charting of the behavior and interviews with family, teachers, and the student to determine the frequency, antecedent, and response of the targeted behavior.

Individualized Education Program (IEP) - A student's Individualized Education Program (IEP) as defined by the Individuals with Disabilities Education Act (IDEA).

Isolation - The confinement of a student alone in an enclosed space without locking hardware. Isolation does not include supervised in-school suspension, detention, or

Seclusion - The confinement of a student alone in an enclosed space from which the student is physically prevented from leaving by locking hardware.

strategies have not safely managed the situation; or as specified in a student's IEP of 504 Plan, or other agreed-upon plan to address a student's behavior.

A student placed in isolation must be monitored by District personnel. This requires personnel to be in close proximity so the student can be seen and heard at all times. Monitoring shall be face-to-face unless personal safety is significantly compromised; in which case technology-supported monitoring that includes visual and sound capabilities is utilized. Students will only remain in isolation for the length of time necessary to address the emergency or in accordance with the written, applicable plan. No pressure or weight will be placed on the chest, lungs, sternum, diaphragm, back, neck or throat of a student which restricts breathing. Physical restraint will be done in sight of another adult unless no other adult is immediately available due to an unforeseeable emergency. Physical restraint may never be used as a form of discipline or convenience of school personnel.

Mechanical Restraint – As defined in this policy, mechanical restraint shall only be used in a student's IEP or Section 504 plan with two exceptions: Vehicle safety restraints used according to state and federal regulations; mechanical restraints employed by law enforcement in school settings used in accordance with professional standards and law enforcement policies and procedures.

Special Education and Section 504
I-125-P

The District will find and evaluate children from ages three through 21 who reside within the District's attendance areas and who may need special education and related services. This requirement includes students who attend private or home schools. Students eligible to receive special education and related services who attend the District will be provided a free and appropriate education (FAPE) in accordance with the Individuals with Disabilities Education Act (IDEA), the Missouri State Plan for Special Education (State Plan), the District's local compliance plan, and all federal and state laws. Students who attend private or home schools are not entitled to FAPE, yet may be eligible for special education and related services as defined by the District through the expenditure of a proportionate share of its IDEA Part B funds.

The District will identify all students ages three through five (not Kindergarten eligible) by using any of the disability categories, including that of young child with a developmental delay in accordance with the Missouri State Plan. For a child with a disability who becomes Kindergarten age eligible (age five before August 1), his or her eligibility will continue to be determined using any of the disability categories, including that of YCDD. A child who is not identified as eligible for special education services prior to reaching kindergarten age will be identified using disability categories excluding that of YCDD.

When a student is evaluated for special education and the parents/guardians disagree with the results, they have a right to an independent evaluation by a qualified examiner who is not employed by the District. Administrative procedures are established that define the required examiner qualifications, and permissible locations and costs. Parents requesting an independent evaluation should contact the Director of Special Education.

For students with disabilities who receive services as defined in an Individual Education Plan (IEP), the IEP team must consider the need for Extended School Year (ESY) services as a provision of FAPE. The determination regarding the need for ESY will be based upon data regarding the student's need for services beyond the school year, including but not limited to, the nature and severity of the disability, learning crucial to the students IEP goals and objectives, the child's progress, behavioral and physical needs, documented or projected regression/recoupment, and other factors as identified by the State. If there is insufficient data at the time of the IEP meeting to determine whether ESY is appropriate, the IEP team will specify a time frame and the additional data collection methods necessary to make a decision at a future IEP meeting. If ESY is necessary for the provision of FAPE, the IEP team will identify the length, nature, and type of ESY services for the student.

Students may be evaluated, identified, and accommodated for disabilities by Section 504 of the Rehabilitation Act of 1973 and the American with Disabilities Act to ensure any student is provided FAPE, access to and participation in programs and activities.

The District has developed a 504 Procedures Manual for the implementation of federal regulations for Section 504 of the Rehabilitation Act, Subpart D.

For information regarding an initial referral, procedural safeguards, evaluation, or services, parents/guardians should contact the building principal. To obtain information regarding an independent evaluation, mediation, child complaints or appeal processes, please contact the Director of Special Education and/or 504 Coordinator.

Prior to enrolling in MOCAP, the student must be enrolled full-time and have attended public or charter school for at least one semester immediately prior to enrolling in MOCAP, unless the student has a documented medical or psychological condition that prevented attendance, or unless otherwise approved by the Superintendent.
2. The enrollment process will be substantially similar to the District's current enrollment process for other than virtual courses.
3. The District's designee must approve a student's request to enroll prior to the student's enrollment in a MOCAP course or full-time program.
4. Students who transfer into the District while enrolled in a MOCAP course or program will continue to be enrolled in the course or program upon enrollment in the District.
5. Transfer students who have previously gained credits through successful passage of approved courses under MOCAP shall be accepted by the District.

Approval

1. The District will approve an enrollment request as long as the student meets the eligibility requirements, enrollment occurs within the standard enrollment period, and enrollment in the requested course or program is the in student's best educational interest.
2. Parents, counselors and others may be consulted to determine whether MOCAP or other virtual courses serve a student's best educational interest.
 - The "best educational interest" determination will be made on a case-by-case basis and will include facts and circumstances regarding an individual student's situation
3. In general, students with disabilities may enroll in MOCAP and other virtual courses using the same process applicable to other students. However, for students with disabilities served under the provisions of Individuals with Disabilities Education Act (IDEA) or the Rehabilitation Act of 1973, Section 504 (504), the student's individual education program (IEP) or 504 team may need to consider whether virtual courses or virtual school would serve the student's best educational interest, and if so, whether supports and services or accommodations are necessary in order for the student to participate.
4. Enrollment in MOCAP courses or full-time virtual school will not exceed full-time enrollment in the District.

5. Information regarding MOCAP and District-sponsored virtual courses will be included in parent/student handbooks, student registration materials, and on the District's website.

Denial, Appeal, Removal

1. Refusal to grant approval for a student to enroll in MoCAP courses will be for good cause and a determination that it is not in the student's best educational interest.
2. The District shall provide written notice to the family regarding the reasons for denial and the family's right to appeal to the Board and the Department of Elementary and Secondary Education (DESE). The written notice to the family will detail the appeal process.
3. If a student is approved to enroll in a virtual course or program, the District will monitor a student's progress. If the course is not meeting the educational needs of the student enrolled in the course, the District may remove the student from the course. Recommendations from the course provider and/or DESE regarding the student's continued enrollment in the program will be considered before a student is removed.

Student-Initiated Group Use of School Facilities
I-165-P

Pursuant to law, the District's secondary schools (grades nine-twelve) will provide an opportunity for student-initiated, noncurricular groups to conduct meetings on the school premises during non-instructional time. The District will not discriminate against student groups on the basis of religious, political, or philosophical content of the speech at such meetings. For the purposes of this policy, noncurricular is defined as an extracurricular activity or group that primarily involves students, does not primarily address subject matter taught during the regularly offered courses, does not primarily address subject matter that concerns the body of courses as a whole, does not require participation as part of a class, and for which no academic credit is granted.

Student Publications
I-170-P

School-sponsored, student publications may include the school newspaper/magazine, yearbook, and web pages and must comply with the ethics and rules of responsible journalism. Such publications are educational tools within the curriculum designed to provide venues for communication and the opportunity for students to exercise journalistic and technical skills. Faculty educators are assigned to advise students regarding the compilation and development of content for publication. Publications are primarily created and distributed within the school environment and are not part of a public forum. The building principal/designee may delay or prohibit publication of material that violates confidentiality laws regarding student records and privacy or which may cause a substantial disruption to the purpose or operation of school. The Board authorizes the establishment of procedures for review of information, including commercial advertisements, which must comply with District policy and procedures.

Distribution of Non-Curricular Student Publications
I-175-P

The District provides opportunities for noncurricular student groups to distribute materials on school property, including but not limited to, petitions, buttons, badges, and other insignia. All communications that use the District's technology to create or transmit noncurricular materials are subject to this policy. Students may distribute materials at reasonable times and places that are not likely to create substantial disruption. It is prohibited to distribute any materials to students on school premises which:

1. Are obscene to minors (any person under the age of 18).
2. Are libelous.
3. Are pervasively indecent or vulgar (secondary schools)/contain any indecent or vulgar language (elementary schools).
4. Advertise any product or service not permitted to minors by law.
5. Constitute insulting or fighting words, the very expression of which injures or harasses other people (e.g., threats of violence, defamation of character or of a person's race, religion or other ethnic origin).
6. Present a clear and present likelihood that, either because of their content or the manner of distribution, will cause a material and substantial disruption of the proper and orderly operation and discipline of the school or school activities, which cause the commission of unlawful acts or the violation of lawful school procedures.

Any student wishing to distribute unofficial materials must first submit for approval a copy of the materials to the principal or designee at least 3 business days in advance of the desired distribution time, together with the following information:

1. Name, phone number, email of the person submitting the request.
2. Date(s) and time(s) of day of intended distribution.
3. Location where the material will be distributed.
4. The grade(s) of students to whom the distribution is intended.

Within 2 business days of receipt, the principal/designee will render a decision whether the material complies with or violates the guidelines of this policy. If the request to distribute the materials is denied, the reasons will be stated in writing to the student making the request. If the student is dissatisfied with the decision, the student may submit a request for appeal to the Superintendent or designee. Specific information regarding the appeal process will be provided to the student upon receipt of a request for appeal.

Students who violate the policy will be subject to the District's discipline policies and procedures.

Permission to distribute material does not imply approval of its contents by the school, the administration, the Board, or the individual reviewing the material submitted.

Promotion, Acceleration and Retention of Students
I-185-P

Schools are designed in a manner in which student promotion from grade to grade occurs at the end of each school year upon successful completion of the required competencies of the grade and courses.

In some instances, it may be determined that retention in a grade or subject area serves a student's best educational interest. In other instances, it may be determined that acceleration in a grade or subject area serves a student's best educational interest. Retention, unless otherwise required by law, or acceleration are exceptions that will be reviewed on a case-by-case basis. Retention or acceleration occurs only after communication with the family throughout the course of the year regarding the student's progress, interventions or enrichment opportunities have been implemented, and multiple data points have been considered, including social/emotional factors. The District may provide and require tutoring outside the school day or summer school as a condition of promotion. The final decision rests with the District's administration.

Decisions regarding promotion, retention, or acceleration of students with disabilities will be made in accordance with the Individuals with Disabilities Education Act (IDEA) and other applicable law.

Assessment Program
I-195-P

All students will participate in the required, statewide screening and assessment program or an alternative assessment as determined by a student's Individual Education Plan (IEP). The District will comply with all assessment requirements for students with disabilities. The District has a written assessment plan, which is updated and posted annually on the District's website. In addition, the Superintendent or designee is responsible for all internal and external accounting and reporting procedures.

The Board will consider the price, scope of the audit, and experience of the auditing firm in their selection process.

The Board may expand the scope of the audit beyond what is required. The Board may desire to have specific programs or functions of the District examined at a level beyond what is normally approved in the annual audit of a school District.

The Superintendent or designee will notify county officials of the tax levies of the District prior to September 1, or October 1 if the District is within St. Louis County or any county with a charter form of government. If the District is notified by county or state officials that the proposed levy does not meet the legal requirements, then the Board will have 15 days to determine whether to accept the proposed rate from the state auditor, or provide additional information to the agency that rejected the proposed levy.

The Board may authorize the borrowing of monies within the limits of law. The Board must levy the appropriate tax rate to meet the obligations of the payment of debt.

All District investments will comply with the requirements of law and the direction of the Board. The Superintendent or designee and/or an external professional organization, including Missouri Securities Investment Program (MOSIP), will have the authority and responsibility for management of the day-to-day operations of the District's investment program. Objective

The primary objective of the investment program will be safety of principal and the preservation of capital in the portfolio. The District will also diversify the portfolio to minimize potential losses on individual securities. The investment portfolio will be designed to obtain a market rate of return throughout budgetary and economic cycles, taking into account the investment risk constraints and liquidity needs.

Standard of Care and Conflicts

The standard of care to be used by investment officials shall be the "prudent person" standard. District officials and employees involved in the investment process will not participate in personal business activity that could conflict with the proper execution and management of the investment program or that could impair their ability to make impartial decisions. Investment officials will disclose any material interests in financial institutions in which they conduct business and any personal financial/investment positions that might be associated with the performance of the investment portfolio.

Investment Parameters

Investments shall be diversified to minimize the risk of loss resulting from overconcentration of assets in specific maturity, specific issuer, or specific class of securities. Diversification strategies shall be established and periodically reviewed.

Investments in bankers' acceptances and commercial paper shall mature and become payable not more than 180 days from the date of purchases. All other investments shall mature and become payable not more than five years from the date of purchase.

Reporting and Performance

The Superintendent or designee will provide an investment report to the Board quarterly, including a management summary that provides an analysis of the status of the current investment portfolio and transactions made over the last quarter.

The portfolio should obtain a market-average rate of return during a market/economic environment of stable interest rates.
