

Grants
F-190-P

The Board authorizes the Superintendent or designee to pursue grant opportunities that align with the Strategic Plan of the District. No employee may seek any type of grant or alternative funding opportunity without the approval of the Superintendent. All grant applications must be approved by the Board prior to submission.

Grant funds shall be deposited in District accounts. If the District is only one of the participants in a grant, then another entity may be the fiscal agent of the grant, with approval of the Board. All District policies will be followed, regardless of the source of funds.
