

Emergency Preparedness Plan
F-230-P

The Superintendent or designee is responsible for developing an Emergency Preparedness Plan. This plan will be developed with input from both internal and external stakeholders. Officials experienced in various forms of emergency preparedness will be utilized to help prepare this plan. The plan will cover all anticipated areas of Emergency Preparedness at the District and building level, and it will be reviewed by the Board on an annual basis.

As a part of this plan, emergency drills will be practiced and recorded, to at least the minimum standards of law. District officials are encouraged to work with local emergency management officials during the planning and practice of drills.

A component of the Emergency Preparedness Plan will be the potential utilization of District facilities for community access in emergency situations. The District may adopt a community emergency plan, which allows the use of school resources to provide relief to the community, with the approval of the Superintendent or designee, in the event of a community emergency. If school resources are used for a community emergency, the Board must review the occurrence within 30 days, or as soon as possible.
